

VideoManager Plus

Secure Video Evidence Storage and Management

VideoManager Plus securely stores & manages video evidence from body-worn cameras, video surveillance cameras, CCTV, interrogations, etc.

Secure Storage

Videos are protected from alterations, loss, and unauthorized viewing or printing. The contents of the original video file are NEVER altered, preventing court room challenges towards authenticity. Video data may be securely stored at your site, an off-site location, or in the cloud.

Fully Integrated

DataWorks Plus has established business relationships with multiple hardware and software manufacturers in order to integrate various hardware devices and software into our solution.

Dynamic Playback

Software supports playback of various video formats on multiple devices, including phones and tablets.

Rapid Retrieval

Robust, full-featured search capability provides quick retrieval of the data you need.

The usage of video technology and evidence in law enforcement is growing at an accelerated pace. As a proven systems integrator and leader in law enforcement technology, DataWorks Plus is uniquely positioned to provide solutions for the challenges agencies will face with collecting, securely storing, and analyzing prolific video data.

Secure Storage Protects Data, whether On-site, Off-site, or in Cloud

State	Zip Code	Custom Search Field	

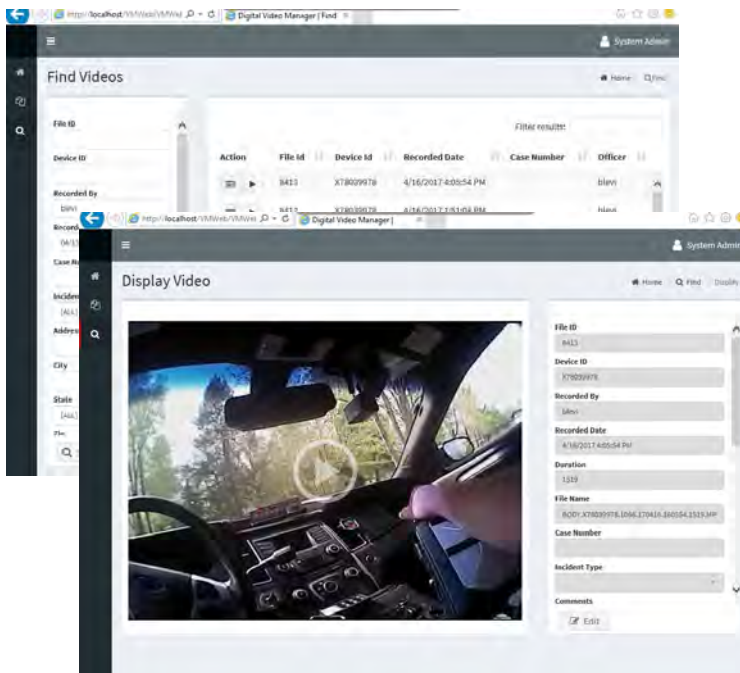

SEARCH HISTORY

Video Analytics

Quickly find the data you need. Indexing process includes running the footage and indexing through facial recognition matches, detected words, detected objects, and GPS locations.

Secure Storage

Video data may be securely stored at your site, an off-site location, in the cloud, or a hybrid approach with a combination of storage options. Videos are protected from alterations, loss, and unauthorized viewing or printing.

Robust Searching

Find specific videos by file ID, device ID, recording officer, recording date and time, case number, incident type, or address.

DataWorks Plus is dedicated to providing the Law Enforcement and Criminal Justice Market with affordable, top of the line products and technology to improve the productivity, efficiency, and safety of officers and other staff. We offer solutions for mobile identification, inmate tracking, booking, crime scene data and image management, live scans, fingerprint archive, facial recognition, records management, and fusion centers.
