

A Leader in Law Enforcement
& Criminal Justice Technology

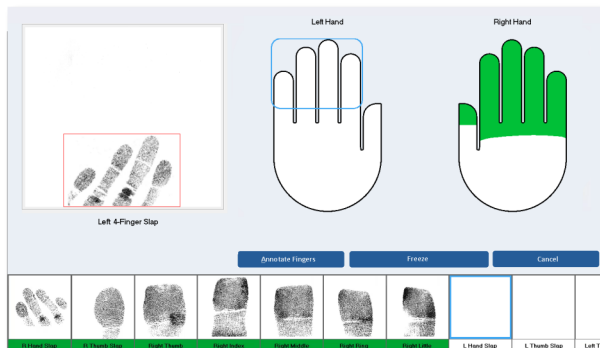

Custom-designed fields

Includes DataWorks Plus' NIST GTM
(Global Transaction Manager)
software that allows the system to
electronically store up to 45,000
fingerprint records

FBI CJIS Certified

LES FAP-50 10 print scanner provides
accurate, high resolution scans in
virtually any environment, including
indirect or direct sunlight.

Quick and easy transactions: as little
as 4 slaps are needed. Fingerprint rolls
can be extracted from slap prints.

DEADSCAN *Plus*

Deceased Identification & Booking Solution

DeadScan Plus is a portable livescan device with an integrated ten print scanner that can capture rolled and flat fingerprints. Primarily designed to achieve quick identification of a dead body. Ideal for medical examiners, coroners, and crime scene teams.

Tablet with
Integrated Scanner

Laptop with
Extended Scanner

- Identify a body before it is removed from the scene.
- Notifies coroners if further DNA/Dental records are needed for identification.
- Quick notification process for faster notification of next of kin.
- Investigations can proceed faster.
- After a positive ID, criminal records can be marked as deceased.
- Success with both mummified and petrified hands.

Laptop with Extended Scanner

- Ideal for coroners offices
- Adaptable for tight areas (car accident)
- Easier to use when Rigor Mortis has set in
- Easier to use keyboard while wearing gloves
- Cart option for portability
- FBI CJIS compliant
- Expandable to capture images and irises

Evolution 5150 Tablet with Built in Scanner

- Portable, all-in-one solution
- More suited for crime scenes/mass casualty incidents
- Wifi/Cellular/GPS for fast response in the field
- Mobile Device Management Software: two factor authentication and ruggedized shell for FBI CJIS compliance.
- Front & Rear facing camera with iris capture capabilities
