

A Leader in Law Enforcement  
& Criminal Justice Technology

## Mobile Identification has Evolved...

The Evolution collection of devices is comprised of all-in-one tablets, handheld smartphone devices, as well as separate RAPID-ID devices connected to MDTs via Wi-Fi or Bluetooth. Evolutions include a patented light-emitting sensor with large fingerprint capture area ranging from FBI FAP-30 to FBI FAP-50 certification for optimal accuracy.

## Multimodal Biometrics

Evolution provides multimodal biometric identification by capturing fingerprints and/or irises and photos (for facial recognition), submitting to State or Federal databases, then returning hit results. Depending on which device you are using, detailed hit results are returned to the device and/or MDT.

## FBI CJIS Security Compliance

Secure Mobile Data Service (SMDS) from DataWorks Plus on all-in-one devices provides Mobile Device Management software, two factor authentication, and a customizable shell to ensure that your agency complies with the FBI CJIS Security Policy. Bundle Evolution 3 with DataWorks Plus-provided Verizon data plan for additional savings and ease of use (optional and dependent upon your agency's IT procedures and regulations.)

A Series

S Series

EVOLUTION 3  
FAP 30  
Single Fingerprint,  
Photos, Irises

EVOLUTION 5150  
FAP 50

Integrated Tablet  
Tenprints, Rolls, Photos, & Irises (optional)

EVOLUTION 4502  
FAP 45  
Dual Fingerprints  
Irises (optional)

EVOLUTION 5004  
FAP 50  
Tenprints & Rolls,  
Irises (optional)

# Unmatched Flexibility & Functionality

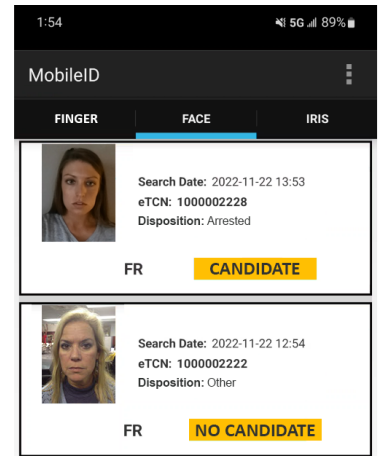

Use Evolution to capture biometrics (fingerprints, photos, and/or irises), search multiple databases, then view hit/no hit results on the device or MDT / tablet / smart phone (depending upon device and configuration.)

Responses are returned within a few minutes. In addition to Hit/No Hit statuses from local, statewide, and/or FBI searches, you will be able to view associated record data, including NCIC, state arrest history, mugshots (when on file), and wants/warrants, etc.
