

A Leader in Law Enforcement & Criminal Justice Technology

# EVOLUTION

## Mobile Identification has Evolved...

The Evolution collection of devices is comprised of handheld smartphone devices or integrated all-in-one tablets. Evolutions include a patented light-emitting sensor with large fingerprint capture area ranging from FBI FAP-30 to FBI FAP-50 certification for optimal accuracy.

### Multimodal Biometrics

Evolution provides multimodal biometric identification by capturing fingerprints and/or irises and photos (for facial recognition), submitting to State or Federal databases, then returning hit results. Depending on which device you are using, detailed hit results are returned to the device and/or MDT.

FINGER PRINTS

FACIAL RECOGNITION

IRIS

### FBI CJIS Security Compliance

Secure Mobile Data Service (SMDS) from DataWorks Plus on all-in-one devices provides Mobile Device Management software, two factor authentication, and a customizable shell to ensure that your agency complies with the FBI CJIS Security Policy. Bundle Evolution 3 with DataWorks Plus-provided Verizon data plan for additional savings and ease of use (optional and dependent upon your agency's IT procedures and regulations.)

EVOLUTION 3  
FAP 30  
Single Fingerprints & Photos

EVOLUTION 5150i  
FAP 50  
Integrated Tablet  
Tenprints, Rolls, Photos, & Irises

## Unmatched Flexibility & Functionality

Use Evolution to capture biometrics (fingerprints, photos, and/or irises), search multiple databases, then view hit/no hit results on the device or MDT / tablet / smart phone (depending upon device and configuration.) Responses are returned within a few minutes.

State	FBI	Date
No Hit	! Possible Hit	1/30 12:34
No Hit	Hit	1/30 12:30
Hit	No Hit	1/30 12:30
Hit	No Hit	1/30 10:11
